

# ARGWEB Identification Card

Member

No expiry date.

The card above can be opened in Adobe Reader PDF viewer, printed, then cut out and folded in half (if you have licences) to produce a two-sided identity card. If you have a home laminator, the card can be made more durable by laminating within a credit card sized (65 x 95mm, 125 micron) laminating pouch.

Printing directly from the browser may give unreliably sized ID cards.
